New Horse

Registered Name

Create

When you add a new horse, it adds to the list

Would love to grow this into also tracking additional details about your horse. Farrier visits, vet checks, etc

Maybe have a page where you can track events you want to attend with entry information

Return to All Times

Edit link will take you to a page with the same look that auto pulls the info and allows you to edit. Edit will also have buttons to update and delete the entry

The View link will take you to a page with the same look but only shows all the information

Note to self for future - add the ability to upload a photo of the full race results
